is an old favourite in Hongkong, and has been played two or three times by amateurs We have rarely, if ever, seen Sir Peter Teazle played better than it was by Mr A. Coxon some ten or twelve years ago, and Mr W. S. Young's Joseph Surface was also a careful atudy which attracted much attention on the same occasion. The staging and dresses were gorgeous, and nearly landed our A.D.C. into bankruptoy, though the dressing and the accessories of the minuet scene will be long remembered as one of the richest and most attractive sights ever seen on our local stage. Mr Bellew on Saturday night could not help turn. ing the 'School for Scandal' into an ovation over his splendid rendering Charles Surface: and notwithstanding considerable disappointment produced by weak acting on the part of others, every one of the large audience assembled in the Theatre Royal on Saturday must have gone away filled with the most pleasurable feelings. It had been reported that Mr Bellew was the best Charles Surface now on the English stage; but as reports are sometimes erroneous, playgoers were full of anticipation. Without pretending to know all the aspirants to the highest position of excellence in rendering the rollicking and good-hearted character referred to, we never expect to see Charles Surface, played better than it was played by Mr Bellew on this his last appearance in Hongkong. July, 1893, in which an eminent economist, exercise the power which they appear to have contemplated temploying, and move the rate of exchange to the position it hald in 1872, in which year the average rate ob-

tained for Indian Council Bills, was le 11.125d. As we know, things have turned out very differently. We are much means the odd 11.125d, than the two shillings which Mr Palgrave deemed almost within reach. Divided counsels, vacillation, and the chapter of accidents have confounded the anticipations indulged for a few short weeks last year. But the gloomy treellotions of those who confidently believed and hoped—that the partially enhanced rupes would fall to its silver value have been fulfilled. In spite of the Devil and Dr Faustus the token rupes remains nearly three pence higher than the silver value of the coin. Were it to fall to the ailver level the obligations of Government which are those of the country and the texpayer-would be now nearly four crores in excess of what they now are, and might

easily become six or even ten crores greater fied measure of anoceas may be rightly claimed by the Government of India for the new currency policy so far as it has been carried. But half measures will not suffice to cope with the situation created by the demonstration of silver by nearly all the great States of the world, while the creased and the cost of the out-turn diminished. The Government, Mr Probys argues, must carry out the scheme in its entirety, and put the rupes on a gold basis. For this purpose all that is necessary in the writer's judgment is that the matic shall be fixed at either one shilling and and rupees be paid out of the trea given in exchange for currency. We much doubt whether the process would be found quite so simple ; but there in he doubt whatever, that by come process adequate to the result the currency of

As we observed the piler day, it is settlefactory to learn on the authority of the ast Prime Minister that the Indian coverence problem has the careful consideration to the Government at Home or The shock to the credit of India which would inevitable result from a further cataclysm of silver carrying the rupee in its wake, would in fallibly react disastrously on the trade and prosperity of Great Britain. The Indian financial question is a British question, which it behaves the Imperial Government to grapple with without loss of time.-

THE CHINA REVIEW.

PUBLISHED BI-MONTHLY.

THIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of ' Notes and Queries on China and Japan, has reached its Twenty-first Volume, The Review discusses these topics which are uppermost in the minds of students of the 'Far East' and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally

The Review department receives speci attention, and endeavours are made to present a careful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to Editor, China Review, care of China

The Notes and Queries are still continued | CANADIAN and form an important means of obtaining from and diffusing among students know-

ledge on obscure points. The Correspondents' column also affords farther and greater facilities for the interchange of views and discussion of various

Original contributions in Chinese, Latin, or any of the Modern Languages are received. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers, Ritel, Bretschneider, and Hirth, Professor Legge, and Messrs Balfour, Watters, Stent, Philips, MacIntyre, Groot, Jamieson, Fater, Kopsch, Parker, Playiair, Giles, Piton; and Taylor,—all well-known names, indicative of sound scholarship and thorough mastery of their subject.

The Subscription is fixed at \$6.50 per ennum, postage included - payable in ad-Orders for binding volumes will be promptly attended to; Address, 'Mana-ger, China Mail Office.'

OPINIONS OF THE PRESS. 'All our learned societies should subscribe to this scholarly and enterprising Review.'-Northern Christian Advocate (U.S.) 'The China Review * * * * has an oxcellent table of contents.'-Celestial Empire. 'The Publication always contains subjects of interest to sojourners in the Far East and the present issue will hold favourable if not advantageous comparison, with preceding numbers.'-Celestial Empire. This number contains several articles

of interest and value.' -- North-China Herald. The China Review for September-October fully maintains the high standard excellence which characterises that publioation, and altogether forms a very luteresting and readable number. Meteorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results he of observations made at the Imperial Russian Observatory at Paking, from 1841 to 1880. "Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hua," and the Notes and Queries are as usual very interesting.'-North-China Daily News. 'A substantial and reliable Review which

all students of China and the Chinese would do well to patronise.'- Chrysanthemum. The November-December number of the China Review contains less variety than usual, but the few articles are very interesting. The opening paper by Mr Herbert A. Giles on "The New Testament in Chinese" treats of a question that must necessarily be of great importance in the eyes of all missionaries. Mr E. H. Parker's "Short Journeys in Szechuen" are continued, and a goodly instalment of these travels in the interior of China is given, Mr F. H. Balfour contributes a paper of some length entitled "The Emperor Chang, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history.

A few short notices of New Books and s number of Notes and Queries, one of which "On Chinese Oaths in Western Bornec and Java " might appropriately have been placed under a separate heading, complete the number. —H.K. Deily Press.

Trubner's Oriental Record contains th following notice of the China Review:-The present publication, judging by th number now before us, is intended t occupy a position, as regards China and the neighbouring countries, some what similar to that which has been filled in India by the Calcutta Review. The great degree of a tention that has been bestowed of late year upon the investigation of Chinese literature antiquities, and social developments, to say nothing of linguistic studies, has led to the more of information of important stores of information of importa ation, rendering some such channel of pul licity as is now provided extremely desirable; and contributions of much interest may fairly be looked or from the members of the foreign consular services, the Chines Customs' corps, and the missionary body among whom a high degree of Chine scholarship is now assiduously cultivated and who are severally represented in the fire number of the Review by papers highlereditable to their respective authors Some translations from Chinese novels an plays are marked by both accuracy and fresh mess of style; and an account of the career of the Chinese post-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowrs, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that Hongkong Electric Co., Limited.....30,000 line and Queries are destined to Green Island Coment Co., Ld.20,000 and the place in its pages also. It is to be Green Island Coment Co., Ld.20,000 and the place in its pages also. It is to be Green Island Coment Co., Ld.20,000 and the place in its pages also. hoped that this opening for contributions Hongkong on Chinese subjects may evoke a similar degree of literary seal to that which was displayed during the lifetime of its predation.
